DIVE EGYPT ON THE **Red Sea** AGGRESSOR

With awesome visibility and breath-taking soft corals, the Red Sea is one of the most popular liveaboard scuba diving destinations in Egypt. There are over 1000 species of fish in the Red Sea, 20 percent of which are found nowhere else in the world. Because it is one of the sunniest places on the planet, corals and their tiny guests thrive on an overabundance of solar energy. It is also the resting place of many intriguing wrecks including several WWII ships that house countless artifacts.
